

## **New NON-Urgent Referral Process for Belleville and Quinte Ophthalmology**

Dr. Terry Sakamoto and Dr. Adam Stewart are excited to announce a recent collaborative project to improve local Ophthalmology Referrals and align with the CPSO's new Continuity of Care Policies.

Together, we have developed a standardized referral form that can be used for non-urgent referrals to any of the local ophthalmologists.

URGENT REFERRALS → still phone the on-call ophthalmologist

NON-URGENT, ELECTIVE REFERRALS → can fax the new standardized form directly to the ophthalmologist of your choice.

**New Referral form comes in two formats:**

- a) Standard PDF**
- b) Custom Form compatible with TELUS PS Suite EMR**
